ABSTRACT:

It's matter of Fact that there are different categories of people. Some are living high standard life with all the comforts they desire, but majority of people in the world are living their life below standard.

However, it is acceptable but what about those who have no idea about standards. They are living mysterious. They don't live but spend their life. There is another grade of people who are called white collar. They endure hardships. They dare to suffer but don't ask for help.

There are Cancer patients, there are homeless people, hungry children, uneducated young men, unemployed fathers. We have decided to launch a helping program to find out the needy persons who deserve help but don't have courage to ask for help. The help with steemit power, without even spending anything, just by promoting the cause .So, we are started a service organization "HANDS TOGETHER" established on 24th july,2019.At "Hands Together" we believe that nobody should suffer being poor .That's the only principle which keeps moving us forward. We need your support to do this. So join hands together. Stay. Play your part. It's not possible without you.so we all are decided to launch a website and also planning to do online transactions (donations).

KEYWORDS:

Administrator, transaction, donations, feedback,services, user credentials, support.

INTRODUCTON:

There are millions of poor people in the world. What is our responsibility towards them? Should we help them? How can we help them?

"Hands together organisation" providing so many services which are very useful to the people like:

Give them support: We are treating everyone as equal and give them a hand or a hug. Give moral support, giving love, respect and make them aware that someone really cares about them.

Economic support: Ordinary people can donate money to poor people by giving financial/economic support. We will help to the poor people to solve problem with living. For an example, they have to bring meals for their family, a place to live.

Groceries: Give groceries to poor people. They can't even afford a meal for themselves or their family. Don't waste food; it is better to give it to those that need it the most.

Old belongings: To help poor people, is to give them old things, such as old clothes, old furniture or other old things. Clothes are big help for poor people especially in the winter season.

Education: we are also providing education which is helpful to the poor children to stand on their own. Giving free education will help to the poor children to grow as strong person in our society, help them to live a better life, In future we will provide job facilities those who are unemployed, and we build their better career. By this organization children can develop their communication skills and technical skills.

We can give hope. We have to provide them basic necessities of life. Hand together will give platform to all the donators, to give their donations for our organization. Who are interested to join in our hands together family, will register in our website,

www.hands-together.org if you have already an account in our organization sign-in into our website. Everything that belongs to hands together we will update regarding events and our plans in our website. Who want the details of our organization visit into our website.

Logo of our hands together organization

METHODS:

We provided food facilities, clothes and other educational facilities to the people who are suffering with poverty. Moreover, recently we collected money for the poor people, spending that

money on the slum areas who are lost their employment/daily wages due to COVID 19(Corona Virus). Nearly 50,000 Rs/- donations were collected from different areas of the people and served for Orphans and old people. We will always give our hands to the people who are in needs.

RESULT:

As per the study of poverty in our country be like:

Our hands together organization done the research on poverty in India, we are trying to reduce the levels of poverty. We took this as our project because it is the main drawback in our country. For that we also started a website with the name of our organization.

DISCUSSIONS:

Our project actual goal is: poverty should not be exist in our country after a few days we are watching a lot of news today in newspapers, that many people are dying because of poverty .if we help one another we cannot get such deaths regarding this poverty. Our Hands Together Organization helps to build a “Poverty-free society”.

CONCLUSION:

Social work is not just a work, it’s our responsibilities and duty.it is very important to everyone to lead their lives and develop our society. We should maintain such ethical skill we can develop ourselves also. “Hands together” will always provide better facilities to everyone. This will continue in future also. Everyone should take their own duty to serve for poor people. Everyone should live with humanity. “Hands together” as moving forward to help our society forever.

“We will always give our hands to the people who are in needs”.

ACKNOWLEDGEMENT:

We are appreciative to our computer science and engineering for their help and giving us a chance to make this project successful and simpler. While looking about this point we found out about different significant and fascinating realities. We also Thankful to all the faculty and friends who are supporting us and thankful to each and everyone who are involved in this hands together project for encouragement and giving help to us.
